

Title: Business Intelligence Management Consultant

Location: Edina, MN

Position Overview:

eCapital Advisors is a management consulting firm experienced in leading mid-market and Fortune 500 companies to higher levels of performance. We help companies define, plan, design and successfully integrate the world's premier business performance technologies with processes at every level of the enterprise. We partner with Cognos, an IBM Company, Hyperion, an Oracle Company and Microsoft to offer enterprise performance planning and business intelligence software to aide in budgeting, forecasting, and overall business performance management. This opportunity is for a business intelligence consultant working primarily in the upper Midwest.

Responsibilities:

- Assist in sessions with subject matter experts in an effort to formulate application design requirements.
- Develop a high level design which supports a robust technology solution, taking into account the user requirements, technical requirements, etc.
- Drive technology architecture and infrastructure design activities.
- Lead and supervise technology build, test, and deployment activities.
- Troubleshoot, diagnose, and support application development.
- Candidate will be expected to be involved in the full lifecycle of BI/PM implementations, taking on roles beyond that of a consultant when necessary. Must be comfortable being involved in business analysis and testing tasks in addition to architecture and development.
- Contribute to the development and growth of eCapital Advisor's BI/PM practice by contributing through leadership, speaking/publishing, mentoring junior consultants, and providing assistance to our sales and marketing teams.
- Prepare the appropriate user and technical documentation.
- Position requires travel (approximately 25% to 40%).

Qualifications:

- Minimum 2 years experience with the Cognos BI suite of Products; ReportNet experience is mandatory.
- Must possess a strong desire to work hands on developing data warehousing, reporting and performance management solutions across a range of industries and functional disciplines.
- We require formal training/certification or project-based experience with more than one of the following products: Powerplay, ReportNet, Metrics Manager, and Design Stream. Cognos 8 experience is a plus.
- Problem solving skills combined with excellent written and verbal communications skills are necessary.
- Strong organizational, multi-tasking, and time-management skills.
- Understanding of budgeting, planning and forecasting concepts beneficial and experience integrating with Cognos Enterprise Planning is a plus.
