

Title: Financial Consolidations Management Consultant

Location: Edina, MN and St. Louis, MO

Position Overview:

eCapital Advisors is a management consulting firm experienced in leading mid-market and Fortune 500 companies to higher levels of performance. We help companies define, plan, design and successfully integrate the world's premier business performance technologies with processes at every level of the enterprise. We partner with Cognos, an IBM Company, Hyperion, an Oracle Company and Microsoft to offer enterprise performance planning and business intelligence software to aide in budgeting, forecasting, and overall business performance management. This opportunity is for a financial consolidations management consultant working primarily in the upper Midwest.

Responsibilities:

- Develop project plans and provide project management leadership.
- Participate in the development of the data scope, report design, KPI's, and overall user interaction.
- Work with the business users and IT to complete projects on time, within budget and with the designed effectiveness of the customer.
- Identify the interfaces with existing G/L, ERP, CRM and other source systems.
- Sufficient working knowledge of accounting principles around consolidations and techniques and issues encountered when consolidating.
- Train the business users and IT on the use and administration of the system.
- Provide the appropriate user and technical documentation.
- Assist with eCapital Advisor's sales opportunities by building "proof of concept" solutions.
- Position requires flexibility in travel (0 to 75%).

Qualifications:

- Bachelor's degree in Accounting and/or Finance. MBA and CPA are a plus.
- 3-5 years experience as a financial consolidations consultant, senior financial analyst or similar solutions skill set.
- Proven leadership and communication skills with the ability to work effectively in a team environment, as well as in an independent role.
- Working knowledge of Microsoft Office Systems, GAAP and financial reporting concepts.
- Experience with Cognos, Hyperion, Business Objects, FRx or other Performance Management solutions are a plus.
